Customer of Utilities Inc.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

Utilities Inc. states that it needs increase rate structure to cover improvements that were made over the last three years. Since they were previously granted an increase to improve infrastructure in 2010, in the amount of 18%, this should have provided adequate funding to recoup their cost for repairs. The company has had other rate increases in the past that would have provided necessary revenues to repair and maintain the system.

The company neglected the system in the past and was forced to make capital improvements to meet regulatory requirements; the company's captive customers should not bear the burden of their poor planning. The current proposed rate increases are exorbitant and will be a great burden on those on fixed incomes. The City of Tega Cay demographics reflect a high percentage of retirees that are on fixed incomes and the proposed increase in an already down economy will be extremely burdensome, especially for those with very limited incomes. Also, the PSC must recognize that York County is the hardest hit County in SC due to the economic downturn.

The company could have circumvented the need for the extreme and excessive proposed rate hike had regular and routine maintenance been performed and long range capital improvements had been programmed properly. The bottom line is the proposed rate hike is not reasonable and will create a huge burden for the residents of Tega Cay. We hope that the Commissioners will reject the proposed increase and understand th
